HOW TO JOIN UP THE SILOS?
Many levels in building coalitions/
Networks for climate and health

Within Health: hospital, primary care, public health, private care...

Health and rest of government: environment, urban planning, agriculture, disaster and emergency, transport, finance...

Health and Community: Academia, NGOs, Churches, sport, Media & comms

Conflicts of interest: Fossil fuels, Tobacco
Joining up the Silos: What works?

• Money works!
• Shared objectives
• Going to meet others in different sectors
• Mandates
• Health arguments/ data
• Re-framing - put other’s interests first
• Training in health diplomacy, negotiations, partnership
Insights re. building networks

• People are not wired to collaborate!

• It’s not organizations that collaborate; it is people in organisations

• Seek not only your own interests, but also the interests of others (Phil 2:4)

• Listening and replaying/ acknowledging and validating

• Communication and relationship are the keys to the ‘circle of power’
7-point negotiation framework

Home - CMPartners
A cross-sector partnership is:

- An on-going working relationship between organisations from different sectors
  - Combining their resources and competencies
  - Sharing risks and reward
  - Towards achieving agreed objectives
  - While each achieving their own individual objectives
