

**GENDER, ADOLESCENT
TRANSITIONS, & ENVIRONMENT**

Evaluation Research Assistant

The [Gender, Adolescent Transitions and Environment \(GATE\)](#) Program is housed within the Sociomedical Sciences (SMS) Department. GATE is an innovative research and practice program dedicated towards improving the lives of adolescents and women in the USA and around the world through addressing issues related to puberty, menstrual health and hygiene, and access to sanitation. This includes contributing to building the evidence and learning on best practices, policies, and cross-sectoral partnerships focused on addressing these critical issues in low resource contexts and humanitarian emergencies globally. The GATE program is led by Dr. Marni Sommer.

The GATE Research and Evaluation Assistant will:

- Participate in a formal systematic review on adolescent mental health and menarche, including a guided literature review search, data extraction, and data synthesis
- Support an ongoing research study on puberty education, including the transcription, coding, and analysis of qualitative data
- Provide general research assistance including supporting reference management for relevant projects, reviewing, editing and formatting materials and manuscripts for conference presentations and journal submission

Preferred Qualifications:

- Literature review experience, including extracting and evaluation peer-reviewed publications from various electronic databases
- Qualitative research experience, including relevant coursework and/or analyzing data using software
- Interest in adolescent health, menstruation and puberty education.

The position will be approximately 5-8 hours per week from September 2023 through December 2023. The position will pay \$22 USD per hour.

Please upload your resume and a cover letter for this position to [this application form](#) by 5:00PM EDT, Monday, July 24th.
