

Sexual Health Metrics: Data to Practice

Learning Community, March 28th

Welcome! Please introduce yourself in the chat 😊
Name, clinic & role, and...
what are you excited about for spring?

Welcome, and happy spring!

- **Please introduce yourself in the chat!**
- We're happy to have attendees here from the following clinics:
 - Bell Flower Clinic, Indianapolis, Indiana
 - Litoral Clinic, Migrant Health Center, Mayagüez, Puerto Rico
 - Mary Eliza Mahoney Health Center, Newark, New Jersey
 - Morrisania Clinic, Health & Hospitals, Bronx, New York
 - NYC Department of Health, NYC, New York
 - Take Care Down There Clinic, Columbus Public Health, Columbus, Ohio

Group Agreements

- Keep cameras on, especially when talking
- All participants contribute to the discussion
- We're here to learn together
- Confidentiality: any patient information shared remains private

Clinic Share

- ❖ Please share a one sentence description of the project you shared in the worksheet

Clinic Project Walkthrough: Columbus Public Health

1. Project identification – how was this project chosen/identified?
When was data looked at to support this project idea?
2. Whose behavior is this trying to change?
3. What is the mechanism of action (what do you hope leads to the change)?
 - a. We hypothesize that by providing X it will lead to behavior change Y
4. How do we measure if behavior has changed?

SMART Goals

How is this goal SMART?

Goal: “Achieve a 10% increase in PrEP referrals among racial and sexual minorities by September 1st 2023.”

How is this goal...

- **Specific**
- **Measurable**
- **Attainable**
- **Realistic**
- **Timebound**

Adding an IE...SMARTIE Goals

SMARTIE Goals: adding Inclusion and Equity...

Inclusion: expanding access to opportunities and resources for people who might otherwise be excluded or marginalized

Equity: recognizing that we do not all start from the same place and therefore ensuring everyone is provided what they need to succeed

****Not equality:** providing everyone the same resources or opportunities

Adding an IE...SMARTIE Goals

Turning SMART goals into SMARTIE goals...

Goal: “Achieve a 10% increase in PrEP referrals among racial and sexual minorities by September 1st 2023.”

How might this goal impact **‘inclusion’**?

How might this goal impact **‘equity’**?

Adding an IE...SMARTIE Goals

Now we have a SMARTIE goal

- Has incorporating the IE changed the **strategy** for this goal?
- Has it changed how this goal may be **measured**?

Breakouts!

Questions to discuss with group:

1. Whose behavior are you trying to change?
2. What is the mechanism of action (what do you hope leads to the change?)
 - a. "We hypothesize that by providing X it will lead to behavior change Y"
3. How would you pivot if not successful?

SMARTIE goal development:

1. How might this goal impact 'inclusion'?
2. How might this goal impact 'equity'?
3. How can equity and inclusion be incorporated into this goal?
4. Turn your SMART goal into a SMARTIE goal

Large group discussion

Quick Evaluation

1. How would you rate the value of today's discussion?
2. The level of the brief lecture was:
3. Attending the learning community is a good use of my time.
4. I felt comfortable contributing during the LC session.
5. As a result of today's session, are there any changes you would make in your practice?
6. Since the last LC, has your clinic made (or is in the process of making) any clinical practice changes related to HIV prevention services?

Next Learning Community Session

Date: May 23/30, 2023

12-1pm EST

Topic: TBD!

In the meantime...

Look out for our April newsletter!

VOL. 7 FEBRUARY 2023

February Newsletter

INJECTABLE PREP SUPPORT

Are you interested in implementing injectable PrEP at your site but not sure where to start? As your regional PTC we are **available to provide clinical training and technical assistance** support on many topics, including injectable PrEP.

What might this look like? We can discuss and review protocols, including sharing examples from sites with existing CAB-LA programs. We can link you with clinics who have implemented CAB-LA, who can share their experiences. We can help troubleshoot potential barriers and discuss ways to overcome them. Finally, we can offer training and clinical support for your team members. And more! We would love to support your clinic in implementing CAB-LA - please reach out to get started.

JANUARY LC RECAP

January's LC topic was **Injectable PrEP**. We heard from each clinic about how they have prepared for injectable PrEP, or CAB-LA, and what concerns they have.

Kerri Carnevale, DNP, discussed injectable PrEP at New York Presbyterian Hospital and **lessons learned from their implementation experience**. These include the importance of patient counseling, cost and financing, and lingering questions around when Cabotegravir is protective against HIV.

Injectable PrEP can be a great tool for patients, but comes with its own challenges. We would love to assist your clinic in working towards successful implementation. **Interested in discussing injectable PrEP further? Let us know!**
