RECESSIONAL

VIVEK MURTHY, MD

19TH AND 21ST SURGEON GENERAL OF THE UNITED STATES

Dr. Vivek Murthy served as the 19th and 21st Surgeon General of the United States. As Vice Admiral of the U.S. Public Health Service Commissioned Corps, he commanded a uniformed service of 6,000 public health officers.

Dr. Murthy's work has widened the lens through which we understand forces that shape our health and well-being. During his two terms as Surgeon General, his initiatives shaped national and international conversations, garnered global media coverage, and compelled change across business and non-profit organizations. He has drawn attention to critical, underappreciated health issues including the epidemic of loneliness, the impact of social media on youth mental health, parental mental health and well-being, the youth mental health crisis, and health worker burnout.

In 2020, Dr. Murthy published the *New York Times* best-seller *Together: The Healing Power of Human Connection in a Sometimes Lonely World*. His 2025 "Parting Prescription to America" laid out a vision for rebuilding community as the key to health, happiness, and fulfillment.

Raised in Miami and an ardent lover of mangoes, Dr. Murthy graduated from Harvard College and received his MD from the Yale School of Medicine, and his MBA from the Yale School of Management. He trained in internal medicine at Brigham and Women's Hospital and Harvard Medical School. A renowned physician, public health expert, research scientist, entrepreneur, and author, Dr. Murthy lives in Washington, DC, with his wife, Dr. Alice Chen, and their two children.

THE OATH FOR PUBLIC HEALTH PROFESSIONALS¹

Health is a human right. The public health community exists to safeguard that right. It is a defining element of a civil society. Public health represents the collective actions necessary to protect the health of all people. Through prevention science and practice we can accomplish this goal. As a public health professional, guided by these principles, I declare the following:

I will work to ensure that all people have the chance to live full and productive lives, free from avoidable disease, injury, and disability, and are supported in their pursuit of physical, mental, and social well-being.

I will hold myself to the highest ethics, standards, values, and responsibilities as I move forward the science and practice of public health.

I will respect the rights, values, beliefs, and cultures of those individuals and communities with whom I work.

I will rely on evidence to support my decisions and actions, and translate that evidence into policies and programs that improve health for all.

I will add to the body of research and knowledge and share my discoveries freely.

I will continuously seek new information and be open to ideas that can better protect and promote the health of populations.

I will advance health literacy for all and seek equity and justice for marginalized populations.

With this oath, I commit to the ideals and mission of public health.

¹Rothman S, Lapp I, Corman R, Fried LP. May 2009. This oath was developed by the faculty and students of the Columbia University Mailman School of Public Health to articulate the professional commitment of the School's students, graduates, and faculty.
