

Join us for seminar on

The Global Coronavirus Outbreak: Update and Future Implications

The Novel Coronavirus (2019-nCoV) has resulted in over 31,000 cases of the disease with more than 600 deaths to date. A total of 25 countries have been affected around the world. This global outbreak raises many questions:

- Where did the virus come from?
- How is it transmitted? And what can people do to protect themselves?
- What is the possible trajectory of this outbreak?
- What are the political, societal, ethical and clinical implications?

Moderator: Wafaa El-Sadr, MD, MPH, MPA

Panelists: Robert Fullilove, EdD, Dept. Sociomedical Sciences
Jessica Justman, MD, ICAP at Columbia University
