Columbia University has decentralized recruiter relationship management and career services. There are currently multiple, separate job boards, and students cannot access the job boards of schools they are not enrolled in. For example, graduate students from Public Health, Nursing, Social Work, Teachers College, SIPA, Journalism, Law, Business and Professional Students cannot log in to Handshake/LionShare.

For the convenience of our recruiter partners, here is a list of the career services contacts and job boards for schools at Columbia. Another list is also available here: https://alumni.columbia.edu/content/school-career-centers
