PRESIDENT AND CHIEF EXECUTIVE OFFICER, DE BEAUMONT
FOUNDATION

Brian Castrucci, who earned his MA in sociomedical sciences at the Mailman School of Public Health, leads the de Beaumont Foundation's work to drive innovation to improve the health of all communities. Castrucci has built the Foundation into a leading voice in health philanthropy and public health practice.

He is an award-winning epidemiologist who has served in the health departments of Philadelphia, Texas, and Georgia. With his commitment to and experience in public service, Castrucci brings a unique perspective to the philanthropic sector, where he shapes and implements both visionary and practical initiatives and partnerships that bring research and practice together to improve public health. Most recently, he has focused on the public health needs of large cities, the need for better data systems, and public health system improvements.

THE OATH FOR PUBLIC HEALTH PROFESSIONALS¹

Health is a human right. The public health community exists to safeguard that right. It is a defining element of a civil society. Public health represents the collective actions necessary to protect the health of all people. Through prevention science and practice we can accomplish this goal. As a public health professional, guided by these principles, I declare the following:

I will work to ensure that all people have the chance to live full and productive lives, free from avoidable disease, injury, and disability, and are supported in their pursuit of physical, mental, and social well-being.

I will hold myself to the highest ethics, standards, values, and responsibilities as I move forward the science and practice of public health.

I will respect the rights, values, beliefs, and cultures of those individuals and communities with whom I work.

I will rely on evidence to support my decisions and actions, and translate that evidence into policies and programs that improve health for all.

I will add to the body of research and knowledge and share my discoveries freely.

I will continuously seek new information and be open to ideas that can better protect and promote the health of populations.

I will advance health literacy for all and seek equity and justice for marginalized populations.

With this oath, I commit to the ideals and mission of public health.

¹Rothman S, Lapp I, Corman R, Fried LP. May 2009. This oath was developed by the faculty and students of the Columbia University Mailman School of Public Health to articulate the professional commitment of the School's students, graduates, and faculty.
